how does teaching christianly differ from other forms of teaching how might a christian teach in a biblical way some commonplace set of facts from a mandated secular curriculum this book considers what a biblical approach to teaching may involve as it emerges from a biblically grounded life and what that might look like in the classroom rather than speaking of integration of faith and learning it starts from a foundation of christ the truth and lord of all and moves to the development of a framework for classroom practice that includes a need to try to see things from god s perspective all truly christian education is seen therefore as a profoundly biblical pursuit leading to the revelation of god to do this the book explores the underlying theology and principles out of which our education should flow these principles then allow us to examine such areas as the consideration of a christian way to teach subjects such as geography and mathematics or even what might be distinctive about the way a christian teacher may do something as mundane as picking up a pencil

whether you re a true believer a dyed in the wool skeptic a student of world religions or somewhere in between your understanding and appreciation of christian belief and theology will deepen with a reading of the teaching of jesus the text focuses on christ s words and deeds as recounted in the new testament and renowned theologian george jackson adds plenty of his own fascinating insight and analysis to the mix
