schank s success designing teaching software has made him a much sought after figure among businesses military clients and universities the new york times the majority of corporate training programs are weak ineffective costly and inconvenient for the time pressed employees they are supposed to train designing world class e learning explores on line learning today s hottest business training topic and explains the learning by doing approach that the author and his firm have used to develop effective on line courses for harvard business school ibm ge columbia university and other world leading organizations roger schank a leading e learning guru and innovator demonstrates steps and strategies proven to excite employees make them want to learn and decrease training costs while increasing productivity schank s approach to e learning involves e learning by doing encouraging learners to fail and learn from failure just in time storytelling from experts powerful emotional impact

through the virtual reality of computer simulations and role playing scenarios virtual learning shows you how to radically rethink your company s entire training process its proven steps and strategies will demonstrate how you can excite your employees make them want to learn more about your business improve your customer service dramatically and decrease training costs as you increase productivity

this comprehensive collection offers a compendium of research on the design implementation and evaluation of online learning technologies addressing the challenges and opportunities associated with the creation and management of based applications and communities instructional design personalized learning environments and effective educational delivery provided by publisher

the entire training industry is undergoing dramatic change as training is moved out of traditional

classrooms and onto the training publications and conferences are now dominated by speakers writers and vendors talking about e learning the e learning revolution is forcing companies to spend millions on new technology and new web based courseware threatening the role of traditional classroom trainers and saving companies millions of dollars in housing and travel costs because trainees no longer need a plane ticket and 3 nights accommodation to attend a corporate training program the training can be delivered to each learner s desktop over the but because e learning is still in the revolution stage there are no clear standards and models for how to create and deliver e learning successfully everyone is asking the same questions how does web based training fit in with traditional classroom based training what are the standards for designing high quality e learning how much interaction with an instructor do e learning participants need what is the role of the instructional designer in online learning the astd e learning yearbook will be the first annual refe

e learning has transformed the traditional premise of educational theorists educationists and business strategists worldwide have been compelled to think out of the classroom and reflect on ways to create theories and strategies around teaching and learning online the premise of this book is e learning is realistic and has a definite framework to it the framework might require tailoring depending on the business context and desired learning outcomes but it definitely requires a great deal of belief commitment and interest from business leaders to accelerate their attempt at creating and building institutions the book is an outcome of the experience of two young practitioners encompassing various areas such as understanding the client needs and proposing appropriate e learning solutions designing course material for e learning products applying old and new instructional strategies developing cbts and wbts and evaluating learning products and solutions for learning effectiveness the book collates the essence of the best lessons on e learning from a practical view point and presents a case for designing cost effective systems which corporates as well as educational institutions may use for enhancing productivity and learning in their organisations it takes a three dimensional view of e learning content services and technology the various evident and not so evident issues related to implementing e learning in organisations and takes a peek into the future of e learning book jacket

this seventh annual edition contains all the best articles and reference information of the past year for the training industry designed to save trainers the trouble of reading dozens of trade periodicals

the yearbook provides all the contemporary thinking and the latest changes in their field in a single annual book the book includes articles of the past year from leading training periodicals as well as chapters from current books and original articles by the consulting editors articles cover issues on the planning delivery and evaluation of training programmes as well as performance improvement this comprehensive reference also provides a large directory of contact information for key organizations conferences and periodicals in the training industry

this collection meets the need for quality authoritative research in this domain with an authoritative collection studies from the electronic government researchers worldwide enable libraries in academic government and other settings to provide a collection on topics like digital government electronic justice government to government information policy and cyber infrastructure research and methodologies provided by publisher

information and communication technologies icts are increasingly being recognized as essential tools of development tools that can empower poor people enhance skills increase productivity and improve governance at all levels the success of ict enabled development or e development will thus not be measured by the diffusion of technology but by advances in development itself economic growth and ultimately achievement of the millenium development goals this volume examines a wide range of issues related to e development with a focus on the requirements and realities of using icts to advance development goals the report does not attempt to present a comprehensive overview of e development rather it highlights key issues that have immediate relevance to policy makers in developing nations who make decisions on investments and development goals it highlights two issues in particular e government and e education because ict applications in these areas can lead to significant development outcomes and can also be successfully deployed through public private partnerships leveraging limited government funding to achieve greater impact
